

JULIANE L. FRY
Arthur F. Scott Associate Professor of Chemistry
& Environmental Studies
Chemistry Department Chair
Nationality: dual American/German citizen, b. 21.12.1977

Reed College
3203 SE Woodstock Boulevard
Portland, OR 97202
(503) 517-7951
fry@reed.edu

EDUCATION

Master of Studies in Environmental, Natural Resources, and Energy Law, 2016
Lewis and Clark Law School, Emphasis: Clean Air Act and Climate Change Law

Ph.D., Atmospheric Chemistry, California Institute of Technology, 2005
Thesis: "Spectroscopy and Kinetics of Atmospheric Reservoir Species"
Advisors: Prof. Mitchio Okumura and Prof. Paul Wennberg

B.S., Chemistry, University of Rochester, 2000
cum laude; Minors: Physics, German, Women's Studies

TEACHING EXPERIENCE

Fulbright U.S. Teaching & Research Scholar Netherlands, 2016-2017
Climate Physics Master's Degree Program, Universiteit Utrecht, Netherlands
Associate Professor, Chemistry Department and Environmental Studies Program, 2014-
Reed College, Portland, OR
Assistant Professor, Chemistry Department and Environmental Studies Program, 2009-2014
Reed College, Portland, OR
Visiting Assistant Professor, Chemistry Department, Reed College, Portland, OR 2008-2009
Undergraduate Research Assistant, University of Rochester, Rochester, NY 1999-2000
Teaching Assistant, General Chemistry and Molecular Spectroscopy, University 1996-2000
of Rochester, Rochester NY
Teaching Assistant, Physics Laboratory, University of Rochester, Rochester NY 1998

RESEARCH & PROFESSIONAL EXPERIENCE

Fulbright U.S. Teaching & Research Scholar Netherlands, 2016-2017
Institute for Marine and Atmospheric Research, Universiteit Utrecht, Netherlands
Visiting Scientist at Institute of Energy and Climate Research, 2016-2017
Forschungszentrum Juelich, Germany
National Center for Atmospheric Research Advanced Studies Program (NCAR ASP) 2011-2012
Faculty Fellow and Cooperative Institute for Research in the Environmental Sciences (CIRES)
Visiting Fellow, Boulder, CO (junior sabbatical year)
Postdoctoral Fellow, University of California, Berkeley, CA with R. Cohen 2006-2008
Climate Policy Fellow, Environmental and Energy Study Institute, Washington, DC 2006
Fulbright Fellow, Phys. Chemistry, Freie Universität Berlin, Germany with M. Wolf 2000-2001

COURSES TAUGHT

At Universiteit Utrecht: Atmospheric Composition and Chemical Processes; **At Reed:** Environmental Studies Research Methods; Analytical Chemistry; Molecular Structure and Properties; Chemical Reactivity; Environmental Chemistry; Physical Chemistry Lab; Environmental Studies Junior Seminar; Senior Symposium; and **as Teaching Assistant at California Institute of Technology:** Molecular Spectroscopy; Atmospheric Chemistry.

RESEARCH INTERESTS

Atmospheric chemistry; aerosol formation, especially from biogenic VOC precursors; chemistry-climate interactions; air pollution; aerosol chemical composition; field measurements; molecular spectroscopy; atmospheric modeling; chemical kinetics; satellite observations of atmospheric composition; environmental and climate policy.

My research group works to:

- Measure chemical composition of ambient atmospheric aerosol using filter samplers and offline Fourier transform infrared spectroscopy (FTIR), gas chromatography mass spectrometry (GC-MS), ion chromatography (MARGA) and electrospray ionization mass spectrometry (ESI-MS); interpret to derive aerosol formation mechanisms using chemical kinetics modeling and employing ancillary gas-phase composition measurements
- Simulate atmospheric aerosol formation chemistry in kinetics flow tube and environmental chamber experiments
- Model regional atmospheric chemistry, including secondary organic aerosol (SOA) formation, to investigate NO_x effects on aerosol formation (kinetics box models, WRF-Chem regional model)
- Analyze satellite datasets of NO_x and aerosol optical properties to investigate correlations and test modeling results
- Conduct field measurements focusing on anthropogenically-influenced biogenic aerosol formation (e.g., BEACHON-RoMBAS 2011: Rocky Mountain Biogenic Aerosol Study, SOAS 2013: Southeast Oxidant and Aerosol Study)
- Collaborate on analysis of chemical ionization mass spectrometry (CIMS), aerosol mass spectrometry (AMS), and proton transfer reaction mass spectrometry (PTR-MS) data from field and chamber studies, to assess oxidation and secondary organic aerosol formation mechanisms

MENTORING SUMMARY: 39 undergraduates, 5 graduate students and 1 postdoc mentored
Senior theses at Reed: Jessica Tobin ('09), Anna Stonestrom ('09), Tara Cass ('10), Caleb Arata ('11), Claire Remington ('11), Lisa Schomaker ('11 Biology, joint with David Dalton), James Bianconi ('13), Danielle Draper ('13), Laura Krause ('13), Kathryn Sackinger ('13), Hannah Allen ('14), Chris Cogell ('14), Alan Tuan ('14), Kang Kang ('15), Natalie Keehan ('15), Eve Mozur ('15), Makoto Kelp ('16), Annelise Hill ('17), Anna Miller ('18), Hunter Wise ('18, joint with Miriam Bowring), Bellamy Brownwood ('19), Marcus Bamberger ('19), Tiffany Thio ('19, joint with Danielle Cass), Cordero Ortiz ('19).

Summer research projects at Reed: Summer 2009: Caleb Arata, Stephanie Dillon, and Li Zha; Summer 2010: Claire Remington, Rhiana Meade, Caleb Arata, Josh Katz, Li Zha, Kathryn Sackinger, Kassandra Reuss-Schmidt (co-advised with David Dalton, Biology); Summer 2012: Danielle Draper and Laura Krause; Summer 2013: Hannah Allen and Danielle Draper; Summer 2014: Kang Kang, Makoto Kelp, Natalie Keehan; Summer 2015: Hyungu Kang, Natalie Keehan, Catherine Neshyba, Summer 2016: Katie Stellmach (co-advised with Alan Shusterman); Summer 2018: Bella Brownwood, Megan Hilton, Hannah McFadden, Andrey Marsavin; Summer 2019: Liam Farley, Ted Hume, Lena Low, Andrey Marsavin, Emily McLaughlin Sta. Maria, Cordero Ortiz

Postdoctoral Fellow: Ben Ayres (2013-2015)

Postbaccalaureate Fellows: Danielle Draper (2014), Hyungu Kang (2015), Natalie Keehan (2015), Anna Miller (2018)

Independent Study projects at Reed: Li Zha (2009), Josh Katz (2010), Rhiana Meade (2011), Makoto Kelp (2014).

Master's thesis committee member at Portland State University: Holly Neill ('12).

PhD thesis committee member at Portland State University: Meenakshi Rao (Ph.D. '16), Jacinda Mainord (Ph.D. '17).

Master's thesis co-mentor at Univ. Utrecht: Alessia Mafoddo ('16), Juhi Varendra Nagori ('17)

OTHER PROFESSIONAL ACTIVITIES

- Co-organizer and panel presenter, “Women in Science Student Summit,” American Chemical Society Portland Section, Jan. 28. 2018.
- Panel presenter and co-convener, “Pollution Analysis in Urban and Rural Settings” at Association for Environmental Studies and Sciences 2013 conference, Pittsburgh, PA, June 19-22, 2013
- Member, Urban Ecology Research Consortium Steering Committee of Portland/Vancouver, 2012-2015.
- Member, American Meteorological Society Scientific and Technological Activities Commission, Committee on Atmospheric Chemistry, 2011-2014.
- Program co-chair and convener, 5th annual Symposium on Aerosol-Cloud-Climate Interactions and Chair, Chemistry at the Climate Science / Policy Interface session, American Meteorological Society National Meeting, Austin, TX, January 6-10, 2013.
- Chair and convener of three joint sessions, Conference on Climate Variability and Change and Symposium on Policy and Socio-Economic Research, American Meteorological Society National Meeting, January 12-15, 2009.

Chair, Conference on Climate Variability and Change session on “Impacts of Climate Change” and Conference on Climate Variability and Change and Symposium on Policy and Socio-Economic Research joint session on “Climate Policy, Vulnerability, and Adaptation,” American Meteorological Society National Meeting, January 20-24, 2008.

Proposal reviewer and panelist: National Oceanic and Atmospheric Administration (NOAA), National Science Foundation (NSF), Pacific Northwest National Lab User Facility

Manuscript reviewer: Journal of Chemical Physics, Atmospheric Chemistry and Physics, Journal of Geophysical Research, Science of the Total Environment, Environmental Science and Technology, Atmospheric Environment, Journal of Atmospheric Chemistry

Memberships: American Chemical Society, American Geophysical Union, American Meteorological Society, Environmental Science Women’s Network, Environmental Chemistry at Liberal Arts Colleges

SELECTED SERVICE AND VOLUNTEER ACTIVITIES

Member, Multnomah County Advisory Committee on Sustainability and Innovation (ACSI) Subcommittee on Air Toxics, 2017-present.

Department Chair, Reed College Chemistry Department, 2017-2019

Served as liaison to Reed facilities and architects in discussions about Chemistry Building renovations, 2014-2015

Served as mentor to two Reed College Assistant Professors, 2014-2015

Chair, Environmental/Analytical Chemistry visiting faculty search in 2013-2014

Member, Inorganic Chemistry visiting faculty search in 2013-2014 and Biochemistry tenure track faculty search in 2014-2015

Presented at OMSI Climate Science Communication Workshop, Sept. 2013

Co-PI, American Chemical Society Portland Local Section Climate Science Challenge Grant, 2013-2014.

Secretary, Math and Natural Sciences Division, Reed College, 2012-2013.

Member, Reed College ad hoc committee on Introductory Sciences, 2014-2015, teaching and research strategic planning committee, 2013-2014, Environmental Studies Committee (2008-2015; Chair 2014-2015), Fellowships and Awards Committee (2009-2015), Sustainability Committee (2009-2010), and Canyon Committee (2010-2011)

Reed College Chemistry Department Seminar Chair, 2009-2011

Developed air quality *Science on a Sphere* exhibit with staff at Oregon Museum of Science and Industry, February 2010

Speaker at International Day of Climate Action, Pioneer Courthouse Square, Portland, OR, Oct. 24, 2009

Mentored high school student science fair project on ozone absorption by water, 2008

Organized Berkeley Great Decisions Foreign Policy Discussion Group, 2008

Guest Commentary on *RealClimate.org*, 2007

Opinion Editorials for *Midland Daily News*, the Environmental and Energy Study Institute, and the *Oregonian* newspaper

Presented keynote lecture to the Carlsbad-Oceanside-Vista Chico branch of the American Association of University Women on “Chemistry in Earth’s Atmosphere,” Oct. 15, 2005

Organized Pasadena Great Decisions Foreign Policy Discussion Group, 2002-2005

Served on Caltech Graduate Student Council Academics Committee, 2002-2005, including serving as Secretary, 2003-2004

Editor of Caltech graduate student publication, the *Technique* (a 300-page guide to Caltech and Pasadena distributed to incoming graduate students), 2004-2005

Served as board member of the Aero Association of the California Institute of Technology (flying club with 7 airplanes and 100 members), 2004-2005

Served on the University of Rochester Undergraduate Chemistry Council, 1997-2000, including serving as Chair, 1999-2000

ADDITIONAL CERTIFICATION

Private pilot (VFR), March 2005

SELECTED HONORS

Caltech Women in Chemistry Annual Seminar Speaker, 2019

Henry Dreyfus Teacher-Scholar Award, 2017

Fulbright U.S. Scholar Award to the Netherlands, 2016

Arthur F. Scott Endowed Chair in Chemistry, 2016

EPA Early Career Award, 2013

Gordon Research Conferences Travel Award for PUI Faculty, 2012

National Center for Atmospheric Research (NCAR) Advanced Study Program Faculty Fellowship, 2011

Cooperative Institute for Research in the Environmental Sciences Visiting Fellow, 2011-2012

Encyclopedia of Weather and Climate Change selected as ASLI (Atmospheric Science Librarians International) Book of the Year for 2010 in the Popular category

Selected to participate in Atmospheric Chemistry Gordon Research Conference, 2007, 2009, 2013, 2015; Biogenic Hydrocarbons GRC, 2012, 2016

Selected to participate in US/Nordic Workshop on Biogenic Secondary Organic Aerosol, 2007-2008

Travel Grant Award from UC Berkeley Science, Technology & Engineering Policy White Paper Competition, 2007□

American Association of University Women Dissertation Fellowship, 2005

Selected to participate in Atmospheric Chemistry Gordon Research Conference and ACCESS VIII Colloquium for emerging scientists, 2005

Dow Chemical Company Travel Fellowship, 2003

National Science Foundation Graduate Research Fellowship, 2001-2004

Fulbright Fellowship, 2000-2001

Flagg Award (2000) and Merck Award (1999) for achievement in chemistry (U. Rochester)

EXTERNAL GRANTS

FUNDED

National Science Foundation, Atmospheric Chemistry Program, "Collaborative Research: Atmospheric Nanoparticle Growth from NO₃ Radical Initiated Oxidation of Monoterpenes,"

PIs: Jim Smith (UCI), Juliane L. Fry

\$167,727

1/1/2018- 12/30/2020

Environmental Protection Agency, Community-Scale Air Toxics Ambient Monitoring, “Improving Diesel Particulate Matter Exposure Assessment for Vulnerable Populations in the Portland Metropolitan Area,” Subaward of Oregon DEQ grant
Academic PIs: Linda George, Vivek Shandas (PSU), Juliane L. Fry
\$59,926
3/15/2018 – 3/15/2020

Henry Dreyfus Teacher-Scholar Award
Juliane L. Fry
\$60,000
9/2017-9/2022

Fulbright U.S. Scholars Program in the Netherlands, “Nitrogen Oxides to Particulate Matter: Investigating the Chemical Mechanisms of Human Influences on Air Quality in Northern Europe,”
PI: Juliane L. Fry
€20,000
09/01/16 - 12/31/16

Pacific Northwest National Lab Environmental Molecular Science Laboratory Science Theme
Proposal # 48347 “Size-dependent molecular-level characterization of secondary organic aerosol from various oxidants using nanospray desorption electrospray (nano-DESI) high-resolution mass spectrometry”
PI: Juliane L. Fry
In-kind instrumentation support, estimated value \$25,677
10/01/14-10/01/16

Collaborative Research: “Influence of NO₃ on secondary aerosol formation: analysis, and interpretation of real-time field observations”
PIs: Jose L. Jimenez, Juliane L. Fry, Douglas Day, Steven S. Brown
National Oceanic and Atmospheric Administration Climate Program Office
\$103,324
08/01/13 - 07/31/16

EPA-STAR (Early Career): “Anthropogenic influence on biogenic VOC oxidation: the role of NO_x pollution in secondary organic aerosol production in the Southeast U.S.”
PI: Juliane L. Fry
Environmental Protection Agency
\$299,995
04/01/13 - 03/31/16

American Chemical Society Climate Science Challenge Grant to Portland Local ACS Section
PIs: Tracey Scherban, Juliane L. Fry, Angela Hoffman, Carl Wamser
\$3,000
05/01/13-05/01/14

Cooperative Institute for Research in the Environmental Sciences (CIRES) Visiting Fellowship,
“Investigation of NO_x-influenced nighttime aerosol chemistry in the real atmosphere: The role of NO₃ + biogenic hydrocarbons and NO₃ heterogeneous losses,”
6 months salary
September 2011 - May 2012

National Center for Atmospheric Research (NCAR) Advanced Studies Program (ASP) Faculty Fellowship program,
research stipend for self + student assistant
September 2011 - May 2012

PNNL Environmental Molecular Science Lab Supercomputer use grant, "Investigating NO_x effects on Secondary Organic Aerosol formation in the western United State using WRF-Chem regional modeling," granted September 2008, renewed September 2009, 2010 with additional 20,000 CPU hours (sole PI)

DECLINED

Mapping aerosol – NO_x interactions from space

PIs: K. Folkert Boersma, Juliane L. Fry, Maarten Krol, and Dom V. Spracklen

Proposal to the User Support Programme for Space Research, the Netherlands Organization for Science, submitted October 2015

Collaborative Proposal: Investigating an Alternate Mechanism of NO_x Effects on SOA Formation from Ozonolysis

PIs: Juliane L. Fry and Delphine K. Farmer (Colorado State University)

National Science Foundation Environmental Chemical Sciences, submitted January 2014

NSF CAREER Proposal: "Follow the N: Constraining the fate of reactive nitrogen downwind of sources," National Science Foundation Atmospheric and Geospace Sciences, submitted July 2013 (sole PI)

NSF Research at Undergraduate Institutions (Atmospheric chemistry program), "APCI-MS/MS measurement of organic nitrates in the gas and aerosol phase for mechanistic elucidation of NO_x effects on aerosol formation," submitted April 2011 (sole PI)

NSF Faculty Early Career Development Program (CAREER), "Real-time measurement of atmospheric organic nitrates in the gas and aerosol phase for elucidation of aerosol formation mechanisms," submitted April 2010 (sole PI)

Society of Analytical Chemists of Pittsburg Undergraduate Analytical Research Program, "Sorbent cartridge collection / thermal desorption method development for GC/MS analysis of atmospheric volatile organic compounds," submitted March 2010 (sole PI)

NSF Course, Curriculum and Laboratory Improvement Program, "Integrating Environmental Chemistry into the Liberal Arts Curriculum through Authentic Research Experiences Using ICP-MS," submitted May 2009 (sole PI)

National Science Foundation (NSF) Atmospheric Chemistry Program, "Atmospheric fate of oxides of nitrogen: Gas-phase NO_y partitioning, particle formation, and acid formation studied in a 130km flow tube," submitted February 2009 (Co-PI with Linda George and Dean Atkinson, Portland State University)
