MISSING STUDENTS

Directive, Clery Act. Note: This language should be identical to what is contained in the On-Call Handbook.

Original publication: August 2013

Latest review & revision: August 2020

Legal Requirement

Federal law (Clery Act) requires that specific actions be taken within 24 hours once a student who resides on-campus is determined to be missing. Because of this, the following procedures shall be used anytime a Reed student is reported to be missing.

Summary

All reports of missing students shall be immediately forwarded to Community Safety Dispatch (503/517-5355). Community Safety will document the report and initiate appropriate investigation and notifications. At a minimum, when a student is determined to have been missing for 24 hours, both the student's indicated contact(s) and the Portland Police Bureau shall be notified within 24 hours. Where there is evidence of a risk to the student's physical/psychological well-being, investigation and notifications may be made immediately upon determining that a student is missing and need not be delayed for 24 hours.

Determining A Student Is Missing

Community Safety will investigate all reports of missing students. A Community Safety Manager (or Manager On-Call) shall be the one to determine what steps are appropriate to take in order to investigate a report of a missing student. In the course of the investigation, Community Safety staff will--in most cases--define the student as missing, and initiate the Missing Student Procedures, when one or more of the following is applicable:

- A documented and currently relevant history of behavioral and/or health issues that suggests the student should be considered at risk until proven otherwise
- Credible report(s) from friends, family, faculty, or others that suggest this student should be considered at risk until proven otherwise

- ❑ An apparent absence of reasonable and benign explanations for the absence
- ❑ Circumstances indicate that the absence may be the result of a criminal act and/or the student's physical safety may be in jeopardy

Reporting a Missing Student

Any member of the Reed community who believes that a student is missing, regardless of the student's residence, shall contact Community Safety Dispatch in person or by phone (503/517-5355) and provide all available information. Contact by email or other means that are not immediate are unacceptable due to the potential seriousness of missing student reports, and the strict response timeline imposed by law.

Notifications

Dispatch shall immediately notify the CS Manager On-Call (CSMOC) and provide all available information. Dispatch may make additional notifications at the direction of the CS Manager, but should not do so until directed.

The CS Manager On-Call shall contact the Assistant to the Vice President (VP) of Student Life during business hours, or the Dean On-call (DoC) after hours to coordinate an investigation of the report.

The CS Manager On-Call shall create a SASSI (Shared Access to Secure Student Information) note flagged for the appropriate staff and include all immediately available information. The CS Manager On-Call may also contact the CS Director/Asst. Director if the circumstances of the report represent an imminent safety threat.

The CS Manager On-call may contact the Public Relations Director if the circumstances of the report make media attention likely.

The CS Manager On-Call, in collaboration with the Assistant to the VP/DoC, shall use the attached missing student checklist to initiate an appropriate investigation and to ensure appropriate notifications are made.
