This 4-bedroom home is equally comfortable for families or professionals. Each level has a room with a queen bed and a room with singles. The lower level single room has a dedicated work space. You will have the entire house and private yard to yourselves.

The kitchen is fully provisioned with all the tools a baker or chef might need. The fenced yard has a picnic table and hammock, plus a covered patio with table and chairs and gas grill. There is easy access for pets off the covered breezeway. A bench and chairs on the front porch are lovely for sunny mornings, or cool, shaded evenings.

Amenities include wifi, roku tv, dvd player and bose, washer/dryer, air conditioning, and programmed irrigation system. The family-friendly house is also stocked with books, crafts, and games for all ages, as well as a stroller, portable crib, and booster chair for little ones. Area maps and guidebooks are provided. Smaller groups or those not comfortable with stairs will be very comfortable using just the first floor.

Off-street parking is available for one car, and street parking is plentiful.

Conveniently located 2 blocks from Woodstock park and 3 blocks from the Woodstock business district with farmer's market, grocery, restaurants and food carts, banks, salons, and more. The Reed campus is just 6 blocks away, accessed through a lovely wooded path for the adventurous or a few blocks further down Woodstock by sidewalk.

Owners Wendy and Ward have lived in this wonderful neighborhood for over 20 years. They will be attentive to your needs while affording you the privacy of a homeowner.
